

2016 EVANS HOTELS Corporate Social Responsibility Report

WE CARE
People • Community • Environment

A LETTER FROM OUR Leadership Team

It is with great excitement that we announce the launch of the Evans Hotels **WE CARE** program.

Being an active member of the community and a good corporate citizen has been part of Evans Hotels' values since the founding of the Bahia Resort Hotel in 1953. Our family-run business is rooted in the belief that our hotels are both "of the community" and "for the community." This philosophy is reflected in our relationships with our workforce and our guests, as well as the support we provide to the community and our care for the environment.

In order to build and nurture a sustainable organization for the future, **WE CARE** focuses on three key areas: our people, our community, and our environment. In this document, we are proud to share our first annual report on our efforts and accomplishments in each of these three sectors.

Through the efforts embodied in the **WE CARE** initiative, Evans Hotels helps ensure that San Diego shines—the oceans, beaches, bays, and parks are clean; our people and communities are healthy and thriving; and there is a wide variety of events and attractions for visitors and residents alike to enjoy.

We are proud of the accomplishments our team has achieved thus far, and look forward to growing our **WE CARE** program even further in years to come. Together, we can build a cleaner and happier future for our people, our community, and our planet.

COMMUNITY

Evans Hotels has a long history of supporting local community organizations that enrich the lives of residents and guests. Through WE CARE, we are dedicated to strengthening our community through donating time, goods, services and cash to causes that ensure San Diego shines for our workforce, their families, and our neighbors.

ENVIRONMENT

Improving and sustaining the local environment through careful stewardship of natural resources is a key focus at Evans Hotels. The company is dedicated to making the oceans, beaches, bays, and parks healthier and more beautiful through local cleanup efforts, waste diversion, water conservation, and energy efficiency as well as carbon emissions reduction.

The Good Traveler Program

Offsetting the environmental impact of travel is now easy, affordable and meaningful.

When you purchase a carbon footprint offset from The Good Traveler, 100% of those funds go to the offset providers. Each Good Traveler certified carbon-offset of \$2 offsets 1,000 miles of flying or 400 miles of driving. Purchasing a certified carbon-offset helps fund a windmill farm, a forestry project and a Colorado Delta restoration project.

Funds from a single Good Traveler certified carbon-offset:

- Offsets 344 pounds of carbon dioxide
- Restores 50 gallons of water

California Green Lodging Program

The California Green Lodging Program acknowledges and certifies environmentally conscious hotels that demonstrate water and energy conservation, waste minimization, recycling, environmentally friendly purchasing, program sustainability, and pollution prevention. The program is committed to demonstrating the highest standards of integrity and environmental ethics for the State of California, as well as encourages state and local government travelers to seek out and give preference to these certified “green” hotels.

These practices enable us to:

- Divert 76% of total waste from our landfills
- Collect 4,558 gallons of grease to be converted to biodiesel
- Recycle 1,240 lbs. of e-waste
- Collect and divert 357 tons of food waste to be composted. This constitutes 100% of the food waste generated.

Environmentalist Level hotels achieved a field survey score of 350 or more points. This is the highest level of program participation. They have a written environmental policy in place and meet all of the seven program’s criteria:

- Waste minimization
- Reuse/recycling
- Energy efficiency
- Conservation and management
- Waste management
- Hazardous materials management
- Environmentally and socially sensitive purchasing policies
